## ABOUT ME

---

Welcome! I'm a Front-end developer with over 4 years of experience in creating dynamic, user-friendly websites and applications. Expertise in WordPress, React, and JavaScript, with a proven track record of delivering high-quality digital solutions.

## SKILLS

---

- ✓ Languages: **JavaScript**, PHP, Python
- ✓ Frameworks & Libraries: **ReactJs**, WordPress, Tailwind CSS, WooCommerce, Statamic CMS
- ✓ **Version Control**: Git and Github, **Hosting & Deployment**: Experience with Hostinger, Kinsta, Vercel, Render and Forge
- ✓ **Additional Skills**: SEO, **Page Optimization**, Google Analytics & Tag Manager, UI/UX Design, Image Optimization

## EXPERIENCE

---

### Web Developer

July, 2021 – Present

#### I-Sarva Infotech Private Limited.

Internship (6 months): Contributed to the development of a UK-based eCommerce platform using Vue.js.

#### Full-Time Role

- ✓ Developed over 10 WordPress sites, including eCommerce solutions using WooCommerce, for a UK-based client
- ✓ Utilized Statamic CMS for a year, delivering 5+ web applications
- ✓ Employed a diverse tech stack that included React.js, Git version control, Tailwind CSS, Laravel, Codelgniter, Forge, and Roots WordPress

### Developer, Drcart.in

Jan 2021 - April 2021

#### Freelance Project | Duration: 4 months

- ✓ Created and deployed a WooCommerce-based online store for a medical book business, managing an inventory of 6,000+ books during the COVID-19 pandemic.
- ✓ Developed an intuitive user interface, integrated secure payment gateways, and implemented SEO best practices.

## PROJECTS

---

- ✓ UK-Based Real Estate Application Development and Maintenance with Zoho and WordPress
- ✓ Developed eCommerce solutions for a UK-based client
